With 4,301 international F-1 and J-1 students, GT ranks 28th for hosting international students (among doctorate-granting universities in the U.S.).

Over the past five years the 6-year graduation rate for students who studied abroad averaged 96.8% compared to a 75.1% graduation rate for students who did not study abroad.

International students at GT contribute over $120 million to the local Atlanta-area economy.

The number of students participating in international programs has increased by 42% in the past five years.
“The IP has been a great talking point in all of my interviews. It has been helpful in showing a willingness to learn new things, to take risks, and that I have an interest in the world on a different level than others. Also, a lot of Web 2.0 companies are looking to expand their businesses internationally, so international skills are valuable and can pay dividends.”
- Julian Prokay, ’11, B.S. CS-IP
