Dear Dean Goldbart,

For the last 10 years, the Office of International Education (OIE) has prepared reports that highlight your College’s accomplishments in sending students abroad. We are expanding the report this year to include information about international students, scholars, and interns who study and conduct research at GT and information about the International Plan.

This report covers Fall Semester 2012 through Summer Semester 2013. The data used to prepare this report comes from databases OIE maintains, from Institutional Research and Planning’s online resources and from national data released by the Institute of International Education.

We are grateful to the College of Sciences for the commitment to international education. We look forward to collaborating with your faculty and supporting your students to ensure that the College and the Institute continue to excel and lead in international education.

Respectfully,
Amy Henry
Executive Director of International Education

---

GT International Education Accolades

- 46.6% of B.S. recipients study, work or research abroad prior to graduation; the national average is 13.8%.

- GT is ranked #28 in the world for teaching, research, knowledge transfer and international outlook by the Times Higher Education poll.

- In 2012-13, GT international students contributed more than $125 million to the Atlanta-area economy.

- GT is a leader in sending engineering students abroad. Nationally, the percentage of engineering students that study abroad is 3%. Engineers at Tech make up the largest group of students abroad at over 57% of the total abroad in 2012-13.

- In the U.S., GT ranks:
  - 29th for hosting international students.
  - in the top 40 universities that host J scholars from abroad.
To date, COS has had 5 IP graduates, all majoring in Biology.

“[The IP globally-focused coursework was] very important; [it] framed my understanding of the history of science policy. The IP helped me figure out how all of my interests fit together, something the regular Biology program could have never done. Had I not done the IP, I might have had to give one of my interests up when selecting a career.”
- Patti Murphy, B.S. Biology

International Plan 2012-13

COS: IP Active Participants by Major, 2012-13

COS: IP Participation as a Percentage of Enrollment by Major, 2012-13

IP Enrollment by Major

2012 IP Freshmen by Major

The participation goal is 10% of undergraduate enrollment.
COS students went to 19 countries on 27 different programs.

25.4% of COS B.S. recipients study, work, or conduct research abroad before graduation.

75 COS students participated in experiences abroad during 2012-13.

“My study abroad experience was one the best decisions I have ever made. I got to do so many different things that I might have never gotten the chance to do. Now I want to visit all these places and know that I will always have that personal connection to them.”

- Claire Kuykendall, Applied Math ‘15
COS: Experience Abroad by Country, 2012-13
