The European Union and Transatlantic Relations Summer Program

Program Dates: May 13 – July 22, 2018

Why study the EU?

Comprised of 28 countries representing nearly 500 million citizens, the EU represents decades of groundbreaking political and economic integration. A major player in global trade, development, security, and scientific research, the EU is the largest economic bloc in the world, generating over 20 percent of the global GDP with only 7 percent of the world’s population. The amount of high-level contact with officials and representatives of the EU, member states, and NATO delegations, coupled with home stays with local families and extended trips to important cities creates a unique opportunity for students of all backgrounds and majors.
