Percentage of Georgia Tech B.S. graduates who participate in an international experience through a study or internship opportunity. The national rate is approximately 15% (excluding international students).

52%

The 6-year graduation rate for Georgia Tech students who studied or interned abroad. The rate for those who did not study or intern abroad is 76.1%.

96.7%

Economic impact on the Atlanta-area of international students and scholars studying at Georgia Tech. International students and scholars throughout the state contributed over $545 million to the Georgia economy.

$1.3M

Growth in Georgia Tech undergraduate students' participation in programs abroad in the past five years. Since 2010, the number of B.S. graduates with an international experience has grown to 1,967.

10%
Through the IP, you won’t just gain ‘hard’ skills expected by your major, but you’ll develop the soft skills for working in international, multicultural environments that can only come from a sustained interest in global thinking. I have several colleagues with whom I have grown close because our scientific conversations are not limited to one language.

Emily Weigel, Biology- IP, ’10

“I wouldn't trade my study abroad experience for anything else. In addition to having a chance to study with mathematicians from Hungary, I also got to explore some beautiful parts of Europe.”

-Yiwen Chen,
Math, Budapest Semester in Mathematics
Fall 2014
While the number of international students in COS decreased from last year, the number of scholars that the college hosted has increased more than 25%.
