The Georgia Tech Global Internship Program is open to all GT students, regardless of class level, major, or national origin. Students may intern abroad in any country not on the Department of State Travel Warning list. Full-time internships must be at least 35 hours per week, lasting 10 weeks in the summer and 14 weeks in the fall/spring, and related to the student’s major or career path. Internships may be paid or unpaid. This list is not meant to be all-inclusive. While the Global Internship Program tries to provide students with as many opportunities as possible, students frequently find their global internships independently and register them with the GIP. For more information, please contact allison.noffsinger@oie.gatech.edu or review: http://oie.gatech.edu/content/gip

Study-Intern Combination Programs
Undergraduates interested in studying abroad for 1-2 semesters, then subsequently interning abroad in the same country, should consider one of the GT exchange programs listed below. These programs offer courses appropriate for INTA students. Other options exist, however, due to potential visa and calendar issues, they should be discussed on a case-by-case basis with the Education Abroad and Global Internship Advisors.

Relevant Search Engines
The Global Internship Program has compiled a list of internship search engines, often specific to a particular country or field, that could be of great use to INTA students searching for one-off global internships: http://goo.gl/bYHRLx

Independent Internship Options
The following internship opportunities are offered by independent universities, governments, and nonprofit institutions. This list includes both paid and unpaid internships. These internships may be restricted to students with particular certain class levels and/or language skills and should be reviewed on a case-by-case basis. Upon receiving an offer, students should register their internships with the Global Internship Program to maintain enrollment while abroad and to record the internship on their Georgia Tech transcript.

AIESEC
• Paid and unpaid internships
• 3-18 months
• http://aiesecus.org/exchange/global-talent/
• Eligibility: Various majors and class levels

AMCHAM GERMANY
