Percentage of B.S. recipients who have an international experience prior to graduation.

Increase in J-1 international scholars teaching or doing research at Georgia Tech, compared to five years ago.

Growth in participation in the Global Internship Program (formerly Work Abroad) in one academic year, from 109 to 151 students.
“Through the IP, you won’t just gain ‘hard’ skills expected by your major, but you’ll develop the soft skills for working in international, multicultural environments that can only come from a sustained interest in global thinking.”

- Emily Weigel, Biology ‘10
